Document Security Needs Assessment Tool

Assessing needs for document security can be a daunting challenge for any IT leader. Use this tool to help gain an understanding of your organization's needs for a document security tool(s). This assessment asks you a series of questions about your:

- Organization and its documents
- Workflow procedures
- Internal vs. external business process orientation.

The foundation for this, or any, solid document security needs assessment is the concept of trust — how much confidence organizations must have in the authenticity of their documents and supporting workflows.

Included in this ZIP file are:

- Intro Doc.pdf
- Terms and Conditions.pdf
- Document Security Needs Assessment Tool.xls
