Physical Access Policy

The majority of the rules in this policy are specific to access to computer rooms, which loosely refers to any room containing sensitive computer equipment such as the network operation center, help desk, server room or telecommunications room.

If your organization already has a well-developed policy regarding access to your buildings, you can delete anything that doesn't pertain to access to computer rooms.

Use this tool from [Toolkit Cafe](#) to set policies for access to your physical locations.
